

A long-lasting friendship and a deep love for rosé wines unite Alexandra Schmedes, renowned winemaker and Armin Zogbaum internationally celebrated photographer and artist. This mutual love is reflected in the creation of their first rosé wine AVIENNE.

This delicate and elegant rosé wine was created in close cooperation in Alexandra's winery Bodegas Más Que Vinos near Toledo, Spain. A beautiful old garnacha vineyard located on the Spanish high plateau, constantly bathed in the most extraordinary pure light, organically farmed grapes, which are exclusively attended to by hand, mark the essence of AVIENNE. With loving dedication to grow the perfect fruit and full attention to detail the two friends capture pureness, true finesse and perfection in every bottle of AVIENNE. The 2021 is the first vintage of AVIENNE.

AVIENNE is characterised by its pale shades of salmon color. The bouquet is marked by delicate notes of small wild strawberries mixed with hibiscus and traces of citrus. On the palate the wine is fresh, fruity with flavors of small red berries, grapefruit and white peach. The finish is balanced, elegant and characterized by a fresh acidity.
